#### (3) Notes to quarterly consolidated financial statements

(Going concern assumption) Not applicable.

(Significant changes in shareholders' equity) Not applicable.

#### (Changes in accounting policies)

#### (Application of IFRS 16 Leases)

Some of our overseas subsidiaries have applied IFRS 16 *Leases* since the beginning of the first quarter of the fiscal year ending March 31, 2020. The standard requires a lessee to recognize in principle all leases as asset and liability on the balance sheet.

The impact of applying the standard on the consolidated financial statements is insignificant.

#### (Supplemental information)

#### (Employee Stock Ownership Plan ("J-ESOP"))

The Company has introduced an Employee Stock Ownership Plan ("J-ESOP") as an incentive program granting employees shares of common stock of the Company to incentivize them to improve its financial results and, thus, stock prices by increasing linkage of their compensation to the stock price and financial results of the Company and sharing economic benefits with shareholders.

The shares of the Company remaining in the Trust are presented as shares of treasury stock in the net assets section at their carrying amount (excluding the amount of incidental expenses) in the Trust. The carrying amount and the number of shares of treasury stock at the end of the previous fiscal year and at the end of the first quarter of the current fiscal year are ¥3,235 million for 3,077 thousand shares and ¥3,224 million for 3,076 thousand shares, respectively.

#### (Board Benefit Trust (BBT))

The Company has introduced a performance-linked stock compensation plan through a Board Benefit Trust (BBT). The plan more clearly links the compensation of directors (excluding outside directors; the same applies hereinafter) to the Company's results of operations and its share value. Under the plan, directors experience both the benefit of high share prices and the risk of low share prices with the Company's shareholders. Such plan thus would lead directors to continuously aim for better performances over a medium- to long-term period and more contributions to increasing corporate value.

The shares of the Company remaining in the Trust are presented as shares of treasury stock in the net assets section at their carrying amount (excluding the amount of incidental expenses) in the Trust. The carrying amount and the number of shares of treasury stock at the end of the previous fiscal year and at the end of the first quarter of the current fiscal year are ¥106 million for 132 thousand shares and ¥106 million for 132 thousand shares, respectively.

#### (Segment information)
