2. Reasons for the dividend amount

With the recognition that increasing corporate value through investment for growth is in the common interests of shareholders, we have established a basic policy that we should first give priority to business investments leading to sustainable corporate value improvement and then make shareholder returns in line with profit growth with a target total payout ratio to consolidated profit attributable to owners of parent before amortization of goodwill of approximately 40%. Based on this policy, the year-end dividends for the fiscal year ended March 31, 2021 have been determined to be 27.00 yen per share, to be paid from retained earnings. As a result, the annual dividend per share including the interim dividend (17.00 yen per share) already distributed will be 44.00 yen per share and the total payout ratio will be 42.2%.

Please refer to the Consolidated Financial Results announced today for the consolidated business results of the fiscal year ended March 31, 2021.
