(Changes in accounting policies)

(Application of Accounting Standard for Revenue Recognition, etc.)

The Company has applied the Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020; hereinafter referred to as the "Revenue Recognition Accounting Standard"), etc., effective from the beginning of the first quarter, and when the control of the promised goods or services is transferred to the customer, the Company recognizes revenue as the amount expected to be received in exchange for the goods or services. However, the Company has applied the alternative treatment provided for in Paragraph 98 of the Implementation Guidance on Accounting Standard for Revenue Recognition (ASBJ Guidance No. 30, March 26, 2021) and, in the case of sale of merchandise or finished goods in Japan, the Company recognizes revenue at the time of shipping when it takes the usual period of time for control of the merchandise or finished goods to be transferred to the customer after shipping.

The application of the Revenue Recognition Accounting Standard, etc. follows the provisional treatment stipulated in the proviso of Paragraph 84 of the Revenue Recognition Accounting Standard. The cumulative impact in case of retroactively applying the new accounting policy to before the beginning of the first quarter is added to or deducted from retained earnings at the beginning of the first quarter, and the new accounting policy is applied from this initial balance. However, as a result of applying the method stipulated in Paragraph 86 of the Revenue Recognition Accounting Standard, the new accounting policy is not applied to contracts in which the amount of almost all revenues was recognized according to the previous treatment before the beginning of the first quarter.

The amount of impact of applying this accounting standard on quarterly consolidated financial statements for the second quarter under review is minor.
